NOTIFICATIONS.

Port St. George, March 21, 1916.

No. 104.—

Special Rules framed under section 10 of the Land Improvement Loans Act XIX of 1880 for the grant of loans for the erection of pumping installations.

In exercise of the powers conferred by section 10 of the Land Improvement Loans Act 1880, His Excellency the Governor in Council is pleased to make the following rules:—

I. Any owner or occupier of land desiring to erect a pumping installation may apply to the Director of Agriculture (hereinafter referred to as the Director) for a loan.

II. Every application for a loan under these rules must be made in writing in Form I hereto annexed and must contain a declaration signed by the applicant that the statements made therein regarding the nature and extent of the improvements on the property offered as security are true to the best of his information and belief and that he believes that there are no other encumbrances on the property. The applicant shall at the same time supply the Director by entry in the column of remarks or otherwise, with information on the following points, viz.,

(a) Whether the applicant proposes to supplement the loan by private capital and if so, to what extent.

(b) The estimated total cost of the proposed work and the probable time that will be occupied in its execution.

III. Upon receipt of an application for a loan the Director shall cause a local enquiry to be made into the correctness of the entries in the application form, the nature and suitability of the land for the proposed improvement and the nature and adequacy of the security which may be offered for the loan; the result of such enquiry shall be recorded in Form VI. The Director shall also consider any objections which may be raised to the grant of the loan. Notice of the proposed loan and work shall be affixed to the village shawals and shall be sent to the Collector and Executive Engineer of the district in which the work is to be carried out.

IV. When the applicant for a loan is an occupancy ryot, as defined in the Madras Estates Land Act, 1908, and proposes to furnish as security for the loan, the occupancy right which he claims to possess in the land to be improved or any other adequate security, the Director shall send a notice of the application, in Form II hereto annexed, by registered post to the actual address of the land-holder.

V. Every such notice shall specify the loan applied for, the nature of the improvement to be made and the nature of the security proposed for the loan, and shall inform the land-holder that, if he desires to make any objections to the loan, he must, within thirty days after service of notice, signify them in writing to the Director.

VI. The land-holder or his local agent or manager may object to the grant of the loan on the following grounds and on no others:—

(i) that the tenant is not an occupancy ryot;

(ii) that by reason of the improvement affecting another ryot's holding the land-holder has a prior right to make such improvement; or

(iii) that the work is not in the nature of an improvement.

If the land-holder or his local agent or manager does not within the time specified in rule V signify his objection on any of the above grounds, or if the Director after considering any objection made, decides that the tenant has occupancy right, that he is entitled to make improvements and that the work proposed is in the nature of an improvement and finds that the value of the occupancy right either by itself or taken jointly with other security furnished by the applicant is sufficient for the loan, he may either sanction it or forward the records of the case for the sanction of the Board or the Local Government as the case may be.

VII. No loan shall be granted unless the value of the security offered exceeds by at least one-half the amount of the loan applied for. The security to be given by the applicant shall include the soil price of the engine and pump, which shall in all cases be mortgaged to Government until the loan has been fully repaid and one or more of the following in addition:—

(1) The applicant's interest in the land to be improved. In valuing the value of such interest, the probable value of the land after the improvement has been carried out may be taken into account.

(2) Other lands belonging to the applicant.

(3) Lands belonging to other persons who are willing to become sureties for the applicant.

VIII. The Director shall be competent to sanction loans for pumping installations up to Rs. 5,000 in each case. Any loan exceeding this amount but not exceeding Rs. 10,000 may be sanctioned by the Board of Revenue, or if exceeding Rs. 10,000 by the Government.

IX. (1) If after local enquiry and such further investigation as may be deemed necessary, the Director is satisfied that the loan may be granted, he shall at once issue an order granting the loan in Form III annexed to these rules. In the case of loans exceeding Rs. 5,000, the loan order will be issued by the Director after obtaining the sanction of the Board or the Government,

as the case may be, under Rule VIII. The notes shall be signed by the applicant in token that he understands and agrees to the conditions contained therein. The security bond to be taken when cultural security is offered shall be in Form IV annexed to these rules.

(5) That applicant shall execute an agreement in Form VII authorizing the Director to grant with the purchase and erection of the plant and agreeing to treat as a loan actually paid to him the amount spent by the Director from time to time on the purchase and erection of the plant and related to his account. The Director will then proceed to purchase and erect or cause to be erected the plant, handing over to the applicant any balance that may remain after payment of the cost of purchase and erection and of the departmental charge of 5 per cent for cost of collecting, purchasing and erecting the plant. This he covers the cost of supervision until the plant is handed over.

X. The rate of interest charged on loans shall be 4½ per cent per annum.

XI. Interest shall accrue from each date on the Director may fix with due regard to the time at which the loan is actually drawn for expenditure.

XII. The loan shall be repayable by fixed annual instalments in discharge of both the principal and interest. The date for the payment of each annual instalment shall be fixed as to coincide if possible, with the date of payment of one of the land revenue bills of the district and the first instalment shall be payable not less than twelve months and not more than eighteen months from the date of the last debt under Rule IX in the borrower's account. When the interval between the date of the last debt and the date fixed for the payment of the first instalment exceeds twelve months, a single instalment shall be calculated as the period in excess of twelve months and shall be recovered along with the first instalment of repayment. The total period of repayment shall in no case exceed five years.

XIII. Nothing in Rule XII shall preclude a borrower from discharging the loan at an earlier date or from paying a larger annual instalment than has been fixed by the Director and the excess so paid shall be credited in reduction of one of the principal, and the number of future payments shall, if necessary, be reduced, but no reduction in the amount of any future instalments fixed by the Director shall on this account be allowed except with the approval of the Director.

XIV. All payments of instalments of loans and interest under these rules shall or directly be made at the Treasury of the taluk in which the land on which the installation has been erected is situated; but the Director may allow the payment to be made at any district or taluk Treasury in the Presidency. The Treasury Officer shall give prompt intimation of the payment to the Director.

XV. The Director may in special circumstances extend the time for the repayment of any instalment up to a maximum of twelve months. When any such extension is granted interest at the rate of 4½ per cent per annum will be charged on the unpaid instalment and will be recovered with the next instalment.

XVI. If any instalment of any loan, interest or other charges contracted thereunder is not paid by the due date, the Director shall send an account thereof to the Collector of the district within which the land on which the pumping installation has been erected is situated and the Collector shall thereupon proceed to recover the same.

XVII. If the Director is at any time satisfied that any person who has received a loan under these rules has failed to perform any of the conditions subject to which the loan was made, he may, after recording his reasons in writing, pass an order directing recovery forthwith of the balance of the loan with any interest payable thereon and all costs, as an arrear of land revenue and shall send a copy of such order to the Collector of the district within which the land is situated, and the Collector will proceed to recover the same.

XVIII. All loans granted under these rules, all sums of interest due upon such loans and all other sums due to Government in connection therewith, shall, if not duly paid, be recoverable as arrears of land revenue.

XIX. If the work for which the loan was granted fails owing to which is the execution of work carried out by the Agricultural Department, the Board of Revenue in cases of loans sanctioned by itself and the Director, and the Government in other cases, may upon a full report of all the circumstances of the case remit the whole or any portion of the loan.

XX. Until the loan with interest and other charges has been repaid in full the pumping installation shall be inspected periodically by the Director who may make or cause to be made at the cost of the owner such repairs or renewals as the Director may consider necessary. During this period the applicant shall be required to pay an annual fee of Rs. 15 for the inspection of the installation.

XXI. The Director shall maintain a register in Form V to be kept up-to-date of all loans granted under these rules. He shall also maintain a register in Form V of all instalments, interest and other charges, showing when they fall due, when they are paid, etc.]

XXII. Every loan sanctioned under these rules shall be reported by the Director to the Accountant-General who will see that the loan is in accordance with the rules and will which his repayment.

XXIII. Nothing in these rules shall prevent any landholder desiring to erect a pumping installation from applying for a loan to the revenue authorities under the revised general rules.

MADRAS MEDICAL COLLEGE.

REVISION, 1916-17.

The Autumn Session of the Madras Medical College will commence on Monday, the 2nd July 1916.

1. Graduates and candidates who have passed the Intermediate Examination in Arts of the Madras University and those who have passed an examination accepted by the Syndicate of the University as equivalent thereto, or one of the examinations which are recognised by the General Medical Council of Great Britain as a sufficient test of preliminary education for the commencement of Medical study, are eligible for admission into the M.B. & B.S., or L.M. & S. classes.

Preference will be given to those who have passed the Intermediate Examination of an Indian University in Group II or I with a Classical or Classical Oriental language or any one of the preliminary examinations recognised by the General Medical Council of Great Britain. In the case of Graduates in Arts a pass in Classical languages will not be required. But as the Madras University accepts at present, as a conditional pass in the Intermediate Examination in Arts an sufficient qualification for the commencement of Medical studies, those who have not passed in a Classical language will be admitted if there are vacancies, but such candidates will be severely handicapped should they wish to proceed to Europe for further study and their degrees will not be registrable outside India.
